

In-Line and Panel Mount Flow Meters

Incorporating traditional variable area precision glass technology, these rugged brass or stainless steel flow meters offer accurate and economical solutions to medium flow range measurements. These meters are designed with unique rotatable scales of dual air-water direct reading graduations showing SCFM and SLPM (air), as well as GPM and LPM (water) markings.

Graduations reflect both metric and English systems.

Dual, rotatable direct reading scales for air and water.

Rigid, compact construction.

Vertical In-Line or panel mount.

Overlapping flow ranges available from 4-20 LPM water and 140 L/min to 900 L/min air.

Precision formed borosilicate glass.
